

Action Technology SERVICES

CAPABILITIES

- ✓ **Action Technology Services** is an experienced Information Technology (IT) and Audio Visual (AV) Systems, Design, Integration and Operations company. Our Team has designed, integrated and maintained over 300 IT & AV Systems in Department of Defense and other Federal Agencies in the US and at overseas locations. Action Tech excels at DevOps development to deliver IT and AV Systems/Software as a Service (S/SaaS) to include onsite and remote technicians providing operations and maintenance support across a broad array of IT and AV systems.
- ✓ **Action Tech** has extensive experience providing government agencies with IT Systems, Applications and Infrastructures while simultaneously meeting organizational Cybersecurity needs. From OSI Layer 1 cable plant infrastructures to Layer 7 Applications, Action Tech provides solutions to meet the diverse requirements of our customers.

DIFFERENTIATORS

As former DoD Acquisition Professionals, the Action Tech Leadership team managed over \$1.5B in Professional Services, Audio Visual Information Systems & Information Technology design and installation contracts. Now, as business owners we use that experience to deliver the Exceptional Support government customers are looking.
